

Equine Lameness and objective gait analysis one day practical course

Monday, October 7th 2024

Speaker Kevin G. Keegan DVM, MS, Diplomate ACVS E. Paige Laurie
Endowed, Professor and Director, Program in Equine Lameness,
College of Veterinary Medicine, University of Missouri

Location: Eickemeyer, Solbakken 26. 6500 Vojens

Language: English

Day 1

08.30 - 09.00 *Coffee and registration*

09.00 - 09.30 Basic Biomechanics of body-mounted inertial sensor-based evaluation of lameness in horses.

09.30 - 09.45 *Break*

09.45 - 10.30 Straight line evaluation,

- Evaluation of blocking
- Evaluation of flexion tests
- Evaluation of lunging

10.30 - 10.45 *Break*

10.45 - 11.15 Combined forelimb and hind limb lameness. Using type of lameness to assist in determination of blocking and imaging.

11.15 - 11.45 Using body-mounted inertial sensors to speed up lameness evaluation.
Using body-mounted inertial sensors for pre-purchase evaluation. Pitfalls of body-mounted inertial sensor evaluation of equine lameness.

11.45 - 12.00 *Break*

12.00-12.30 Instrumentation of the horse with body-mounted inertial sensors.

12.30 - 13.30 *Lunch*

13.30- 16.30 Workshop at Haderslev Hestepraktis, Knorborgvej 4, 6100 Haderslev
- Horses with different lameness
